

January, 14th - On weak measurements in QM (R. Venkatrama)

January, 22nd - Paraconsistent Weak Kleene [Workshop] (speakers: F. Paoli - L. Peruzzi - S. Bonzio - M. Pra Baldi)

January, 27th - Proof-theoretic semantics [Reading Group]

February, 4th - Errors of reasoning vindicated (L. Magnani)

February, 12th - Rivalry, meaning and logical pluralism (M. Pra Baldi)

February, 18th - Quando un sistema fisico realizza una determinata computazione (V. Fano)

February, 24th - Boolean-like algebras of order n and a general Cayley theorem (A. Salibra)

March, 2nd - How to be a relevantist and a pluralist (B. Dicher)

March, 10th - Geometrical aspects of quantum logical gates (F. Holik)

March, 17th - Algebraic description of dynamic physical systems (I. Chajda)

March, 30th - Tempo (G. Torrenco)

April 7th - Second order abstraction and self-evidence (M. Schirn)

April, 13th - Logiche sottostrutturali (A. Ledda)

April, 22nd - Stone duality (S. Bonzio)

April, 28th - A Stone-type theorem for distributive bisemilattices (A. Ledda); Quantifying quantum correlations induced by local measurements (M. Bosyk)

May, 4th - Bilateralism and logical consequence (B. Dicher)

May, 12th - New trends in the theories of arguments and meaning [Workshop] (speakers: C. Bagnoli - G. Corsi)

May, 17th - Boolean algebras of dimension n (A. Salibra); Propositional calculus of dimension n (A. Bucciarelli)

May, 24th - Reasoning with graded notions (P. Cintula)

June, 20th - La scimmia dattilografica: logica, psicologia e dintorni (P. Lecis)

June, 22th - Distributive lattices with a negation-like operation (T. Kowalski)

June, 30th - Lattice-ordered groups and logic, part I (C. Tsinakis)

July, 6th - Lattice-ordered groups and logic, part II (C. Tsinakis)

July, 14th - Proof-theoretic semantics [Reading Group]

July, 21th - Set theory [Reading Group]

July, 27th - Skew Heyting algebras (A. Salibra - A. Bucciarelli)

September, 15th - Algebras of hypergraphs (C. Taylor)

September, 20th - Einstein e l'interpretazione statistica della meccanica quantistica (V. Fano)

September, 23rd - Uniquely complemented lattices (I. Chajda)

October, 7th - Proof-theoretic semantics [Reading Group]

October, 14th - Natural duality for involutive bisemilattices (S. Bonzio)

October, 19th - A general framework to define entropic measures of quantum discord-like correlations (G. Bellomo)

October, 27th - Proof-theoretic semantics [Reading Group]

November, 3rd-4th - International Workshop on Applied Mathematics and Quantum Information
[Workshop]

November, 11th - Incompatible views on spacetime in quantum gravity philosophy (S.L. Pinna)

November, 18th - Deterministic computations and critical pairs in term rewriting systems (D. Fazio)

November, 23rd - Prior and the Master Argument (F. Corpina)

December, 2nd - Anaphoric deflationism, primitivism, and the truth-property (P. Salis)

December, 5th - The square root of the negation: Welcome home bro (F. Paoli)

December, 14th - Sequent calculi for paraconsistent three-valued logics (S. Bonzio)
