

February 09 - Logics of variable inclusion: Algebraic models and axiomatisation (M. Pra Baldi)

February 23 - How many congruences can a finite lattice have? I (C. Muresan)

March 02 - How many congruences can a finite lattice have? II (C. Muresan)

March 09 - How many congruences can a finite lattice have? III (C. Muresan)

March 16 - Amalgams of orthomodular lattices (C. Muresan)

March 23 - Curve ellittiche e crittografia. Un'introduzione. I (A. Salibra)

April 09 - Curve ellittiche e crittografia. Un'introduzione. II (A. Salibra)

April 18 - Un curriculum verticale incardinato sulla matematica (G. Lolli)

May 04 - Algebraic logic [Reading Group]

May 10 - Livelli di coscienza associabili a rappresentazioni neurali (C. Sinigaglia - F. Marrosu)

May 16 - Coscienza, riabilitazione, guarigione (S. Tagliagambe - D. Sirigu - G. Biggio)

June 01 - I paradossi dell'infinito: tematiche classiche e prospettive attuali (P. Mancosu)

June 11-13 - Algebra and Substructural Logics, Take 6 [Workshop]

September 21 - Operator residuation in ordered sets (I. Chajda)

September 24 - Just supposin': Argumentation and metaphor final workshop [Workshop]

October 5 - Replacing hypersequents by bounded cuts (T. Lang)

October 8-10, Quantum Cagliari 2018: Quantum Structures and Quantum Information [Workshop]

October 16, Algebraic logic [Reading Group]

November 7 - An introduction to residuated lattices I (F. Paoli)

November 16 - An introduction to residuated lattices II (F. Paoli)

November 22 - Zariski algebras (I) (A. Salibra); On modeling dependencies in event structures (M. Pinna)

November 27 - Quantali mix *-autonomi e l'ordine debole (di Bruhat) continuo (L. Santocanale)
