

Università Degli Studi di Cagliari, Italy
Bando di concorso per l'ammissione alle scuole/corsi di dottorato di ricerca
a.a. 2011/2012 - XXVII ciclo
Decreto Rettoriale n. 109 del 25.11.2011
Pubblicato sulla G.U. 4a Serie speciale - Concorsi n. 96 del 6.12.2011
Scadenza presentazione domande: 5.1.2012

Call for admission to the PhD course in Earth Sciences - XXVII cycle

For participation, it is required to possess (without limitations of age and nationality):

- Italian degree under Ministerial Decree No 509/1999 and No 270/2004;
- Academic qualification at a foreign university (4 to 5 years degree), recognized as equivalent by the academic authorities.

To enter the competition is mandatory to use the online process, found in the University of Cagliari website, at <https://webstudenti.unica.it/esse3/Start.do>

Details can be found in the file bando dottorati unica XXVII ciclo.pdf

Application deadline: 05 January, 2012

Examination will be held on 18 January, 2012, h 9, at Dipartimento Scienze della Terra, via Trentino, 51, Cagliari

For the XXVII cycle 4 positions are available: two with and two without scholarship.
The course lasts 3 years, starting in February 2012.

The PhD in Earth Sciences is devoted to train students at developing advanced knowledge in the field of Earth Sciences, and technologies to protect and enhance the environmental value of geological resources, such as water resources, geothermal resources, ore deposits, stone materials, archaeological, paleontological and geological sites in Sardinia and elsewhere. Among other facilities, students will have access to GIS and remote sensing, several laboratories for physical and chemical analyses of geological samples, equipped with instruments such as research polarizing microscopes, XRF, XRD, SEM, ICP-MS with laser ablation, ICP-OES, polarography, ion chromatography.
