<b>Course name</b>	Formazione continua e miglioramento di qualità-Modulo La lettura critica degli articoli scientifici / Continuous training and quality improvement
<b>SSD</b>	MED/50
<b>Semester</b>	Fall, 1st
<b>CFU</b>	2
<b>n. of VPS teaching hours</b>	12
<b>Language of instruction</b>	Italian
<b>Course Content and VPS' profile</b>	<p>The course must concern the continuous quality cycle with specific reference to social inclusion interventions and combat disability, with specific reference to psychosocial disability. A characterizing element of the lessons must be the reading of articles with a stimulus to criticism for the student.</p> <p>The VPS will have to be an opinion leader with skills in the sector and international experience in order to be able to offer students a broader panorama of useful experiences for comparison. From this perspective, priority will be given to experts who have already collaborated with Italian Groups, have already knowledge of the Italian health research, and have already conducted comparisons with the Italian mental health system.</p>
<b>Academic position of the VPS'</b>	Professor
